Retail services subject of survey at Wagga Wagga Base Hospital

A survey is underway at Wagga Wagga Base Hospital to understand what retail services patients and visitors are interested to have provided on the redeveloped health campus.

The survey will inform the plan for retail zones and public spaces, services and facilities in the \$431 million Wagga Wagga Health Service Redevelopment.

Wagga Wagga Base Hospital General Manager Troy Trgetaric said, “The results of the survey of our patients and visitors will be used to inform this planning.”

Murrumbidgee Local Health District (MLHD) is also conducting a separate online survey of staff and volunteers, including staff visiting Wagga Wagga from across the District.

The short survey includes 11 questions about what retail services people would like to see provided in the hospital, what food and beverage options should be available for purchase and what time of the day people are likely to use the services.

The short survey can be found online here:

<https://www.surveymonkey.com/r/QQVV6VK> It will be open from Wednesday 27 November 2019 to Tuesday 18 December 2019.

Hard copies of the retail survey for patients and visitors can be found at the Hospital reception and the Wayfinding Desk just inside the Hospital front entrance.

Wagga Wagga Base Hospital is in the third and final stage of the \$431 million redevelopment, which is on track and on budget for completion in 2021.

Further information about the Redevelopment can be found [here](#).

Media note: For further information, including to arrange an interview, contact MLHD Public Affairs on email MLHD-News@health.nsw.gov.au or 0421 324 122.
