3 February 2020

To the Resident
Tumut NSW 2720

Dear Resident

TUMUT HOSPITAL REDEVELOPMENT
COMMENCEMENT OF WORKS

I write on behalf of NSW Health Infrastructure to update you on the progress of the Tumut Hospital Redevelopment Project.

Richard Crookes Constructions has been engaged to undertake the construction of the new Tumut Hospital.

The project will see the construction of a new facility that will replace the existing buildings on the health campus.

The redevelopment will allow staff to deliver a range of integrated health services under the one roof, including acute and emergency care, community health, outpatient and ambulatory services. There will also be a quiet room for families, a cultural room, car parking for staff and service vehicles, and a new helipad.

As a courtesy we wish to inform you that Richard Crookes Constructions will be commencing the enabling works in the next few weeks. The enabling works will be undertaken through to May 2020. This will be followed by the construction of the new hospital which is forecast to be completed late 2021 when services will be transferred to the new facility. The final works, involving demolition of old hospital buildings, landscaping and car parking, will take place in the first half of 2022.

Richard Crookes Constructions place great importance on minimising construction impacts and will work together with the community to promptly address any issues that may arise.

The new works will be constructed adjacent to the existing hospital and not affect its ongoing operation through the construction period.

Please note Richard Crookes Constructions’ standard working hours will be:

- Monday to Friday: 7am – 6pm
- Saturday: 8am – 1pm

If there are any questions regarding Richard Crookes Constructions work or if you have any concerns during the construction phase, please contact myself on 0407 417 032 or 02 6143 2900 or email oliverd@richardcrookes.com.au.

We are proud to be involved in this project in the Murrumbidgee Local Health District (MLHD) and look forward to working with you as we build this important piece of health infrastructure for Tumut and surrounding communities.

Regards

DAVID OLIVER
